

```
/*
 * Adds two given integers and prints the result in a fancy way.
 */
public class AddTwo {
    public static void main(String[] args) {
        int first = Integer.parseInt(args[0]);
        int second = Integer.parseInt(args[1]);

        System.out.println(first);
        System.out.println(second);
    }
}
```
